ABOUT ME

Motivated Computer Science student with a strong passion for building impactful and user-friendly applications. Skilled in problem-solving, quick to learn new technologies, and adaptable to dynamic environments. Demonstrates strong communication and teamwork abilities with a focus on delivering quality results. Eager to contribute, grow professionally, and create value for the organization.

EDUCATION

Bachelor of Technology - Computer Science and Engineering

2023-2027
CGPA-7.01

- Malla Reddy Engineering College

Intermediate - MPC

2021-2023
CGPA-9.44

- Alphores Junior College

SSC

2020-2021
CGPA-10.0

- Paramita High School
-

PROJECTS

AI Interview coach

- Developed an AI-powered interview coaching application that simulates real-time interview scenarios and provides personalized feedback to improve user performance.
- Implemented features like speech/text analysis, question generation, and response evaluation using modern web technologies and AI models.
- Designed an interactive and user-friendly interface, improving user engagement and helping candidates enhance communication and problem-solving skills

AgriHealth: Smart Crop Disease Detection Using AI

- Developed an AI-driven system to detect and predict crop diseases using image processing and machine learning techniques.
- Built a user-friendly application that allows farmers to upload crop images and receive instant disease diagnosis with possible solutions.
- Improved agricultural decision-making by providing early detection insights, helping increase crop yield and reduce losses.

Stock Market Analysis Tool

- Designed and developed a stock market analysis tool to evaluate trends and patterns using historical financial data.
 - Implemented data processing and interactive visualizations to deliver clear insights into stock performance.
 - Applied analytical techniques to support data-driven investment decisions and improve prediction accuracy.
-

SKILLS

- Programming Languages: C Programming, Python, Java
- Web Technologies: HTML, CSS, JavaScript, Node.js, REST APIs
- Databases: MySQL, DBMS, Firebase, MongoDB
- Data Structures and Algorithms: Arrays, Strings, Stack, Queue, Linked List, Trees
- Tools & Platforms: Git, GitHub, VS Code
